Note: Students who do not obtain an 80% on the entrance exam and receives a score between 70-79% may be placed on probation until they have shown the school an average of 70% can be maintained after taking at least three test/quizzes and have turned in at least three math assignments beyond the basic math with satisfactory work. At this point, the student will be taken off probation. Students who receive a score below 70% will be invited back to take another exam and if the score is still below 70%, one of the classroom courses will be offered.
