PROGRAM OF STUDY/INTERNET PROGRAM

Pharmacy Technician Training/Certification Preparation Course

PHARM TECHS R US, LLC offers the entry level/Distance Learning Pharmacy Technician Program for individuals who are starting a career or someone who wants a career change and cannot or choose not to attend classes. The increasing responsibilities of the pharmacist and the aging population make the employment outlook for pharmacy technicians very good. The objective of this program is to provide well-trained pharmacy technicians to feel the needs of the overly tasked pharmacist and the emergence of the pharmacies nationally. The training consists of a Self-Study Program with instructors just a phone call or e-mail away. If you are local, come in to see us by appointment. Students complete the training at their own pace. The last four weeks consist of an externship. After completion of this program, students are qualified to seek a position as a pharmacy technician in a retail, long term care, or hospital setting and/or sit for the National or State Pharmacy Technician Examination. Job Placement Assistance is available for qualified students. Students will be provided with hand-on training before attending the Externship.

Course Clock Number	Course Title	
PHT 111	Pharmacy Technician	Your Pace
PHT 112	Pharmacy Technician Certification Preparation	Your Pace
PHT 113	Pharmacy Technician Externship	80 Hours

All students must complete the program in one year (externship included).

Pharmacy Technician Certification Preparation

Pharm Techs R Us, llc offers a preparation course for current students and technicians who need to pass the National/State Certification Examination. According to the Pharmacy Board, new regulations require pharmacy technicians to be certified. The objective of this course to assist the pharmacy technician in meeting this goal.

In this course students review the following: processing and preparing medications orders, handling medications, storage and delivery of medications, monetary compensation for goods and services, stocking, maintenance, intravenous admixtures, bulk compounding, safety, computers in the pharmacy, pharmacology, drug nomenclature, and drug interactions.

Completion prepares the pharmacy technician in taking the certification examination(s). Pharm Techs R Us, llc does not guarantee that a student will pass the examination(s) after taking this course.

COURSE DESCRIPTIONS

PHT111 Pharmacy Technician

This course provides an overview and introduction to the field of Pharmacy and the role of the Pharmacy Technician in both the inpatient and outpatient areas. Topics include the history of pharmacy, pharmacy law & regulations, the preparation of medications, inventory management, pharmacy operations, healthcare settings, measurements, conversions, drug calculations, medical terminology, abbreviations, and the study of drugs.

PHT 112 Pharmacy Technician Certification Preparation

This course is designed to prepare the students to sit for the national or state examination. Topics presented are Pharmacy General Operations, Medication Classifications, Pharmacy Law, Intravenous Admixtures, and Pharmacy Calculations.

PHT113 Pharmacy Technician Externship (4 weeks)

Students are required to complete an 80- hour externship in an appropriate pharmacy environment. In this externship, students have an opportunity to demonstrate and reinforce the information presented throughout the program. Students meet regularly with the externship coordinator to monitor their progress.
